I understand that the Dealer has equipped the Vehicle with a starter interruption device or a GPS System or both. The GPS is a tracking system which will allow the Dealer or any entity that purchases the Contract from the Dealer to locate the Vehicle in the event of default or theft. I understand that I do not own the Device or GPS until I pay my Agreement off in full. I understand that the cost of the Device or GPS, as well as the cost of installation, was not directly or indirectly charged to me. The Device is designed to ensure that I make my payments on time as required by the Agreement.

I understand that I may not be able to start the vehicle if I am in default of my Agreement. The most typical reason for default is failure to pay any amount due under the Agreement when it is due. I understand that the Vehicle will not be disabled unless and until I default. I also understand that the Vehicle may still start even though I am in default.

I understand that if the Device is activated, in order to restart the Vehicle if it is disabled, I will need to bring my Agreement current with New Millennium Finance LLC in order to have the

Device de-activated. If my Agreement is not promptly brought current, New Millennium Finance LLC will take all actions permitted by applicable law to reprocess and sell the Vehicle.
